## Scorer's quick key

- After every rally: slash the next number in the winning team's point row. The score moves by exactly one.
- Serving team wins: same server keeps serving. Receiving team wins: it gains the serve and rotates one spot clockwise.
- When a server loses the serve, write that team's score in the server's next service-round box (the exit score).
- Subs: write the number coming in and the score. Count every sub against the limit. Libero exchanges are not subs.
- Timeouts: write the score when each one is called, in the calling team's box.
- Lost track? Don't guess. Signal the second referee and check the score before the next serve.
